Dear Mr Mitchell,

Thank you very much for your kind donation of £4,742.75, raised by completing the Three Peaks Challenge in memory of Dave Owens and Frank Goodall.

Well done for raising such a fantastic amount! Please pass on my thanks to everyone involved and all who took part.

Cancer Research UK is the world's leading charity dedicated to researching the causes, treatment and prevention of cancer. Our world-class doctors and scientists are working together to find new and effective treatments for cancer faster than ever before, and to prevent more people from developing the disease.

Cancer Research UK collaborates internationally to share information so that UK patients can benefit from research undertaken all over the world and patients globally can benefit from British research. We are carrying out global reviews of early breast cancer treatment and all the ongoing trials in leukaemia, bowel and prostate cancer.

Thousands of people are alive in Britain today thanks to progress made in cancer research. However, our funds are raised almost entirely through public donations so we rely overwhelmingly on the support of people like you.

If you would like further information on fundraising for or the work of Cancer Research UK, please do not hesitate to contact me on 0113 231 9828 or at the address above.

Thank you again for your valuable ongoing support.

Yours sincerely

Dear Mr Mitchell

I write both personally and on behalf of the Bradford Macmillan Appeal to thank you and the family and friends of Dave Owens and Frank Goodall most sincerely for your generous donation of £4742.75 which you raised through the Three Peaks Challenge.

By raising money for this local appeal you are helping us to provide five additional Macmillan nurse specialists and also an Ethnic Minorities Liaison Worker to work in the Bradford area. All of these specialists make a real difference to the lives of patients and their families by providing expert care and practical and emotional support. Right from the beginning and throughout the patient's experience, they aim to be there for everyone involved, whether at home or in hospital, listening, understanding needs and helping life to go on.

Our vision is to work towards a time when every person in the land has equal and ready access to the best information, treatment and care for cancer and where unnecessary levels of fear are set aside. With support from people such as yourself we will be able to achieve this.

Thank you once again for your support of this very worthy cause.

Yours sincerely

21 November 2005

Dear Gerrard and Colleagues

Yet again I am delighted to write and thank you for accepting the challenge of the 3 Peaks Walk and also contributing so much money to help our Research Institute. We will send you a separate letter to tell you just how we have used this very substantial donation of £4992:75p. Please will you pass on our grateful thanks to everyone who took part and those who made donations through sponsoring the walkers?

I know that you organise your walk in memory of two very special people and I hope that your achievements give you all a sense of pride in that you are making a real difference to the lives of so many people who will benefit from the work our scientists are doing.

Earlier this year we announced that one of our research teams made a substantial breakthrough in putting melanoma cells "to sleep" as a way of helping people living with this condition. The leader of this team is a world renowned expert on this condition and reflects the quality of the work we carry out at our Institute.

We wouldn't be able to carry on this very important work if it wasn't for events like yours.

Thank you so much.

Yours sincerely

Dear Mr Mitchell

### Re: Dave Owens and Frank Goodall Memorial Fund

Thank you so much for your most generous donation of £1,580.94 being the money raised through your annual Three Peaks Challenge.

The continued support and generosity of the friends and family of Dave and Frank is very important to our Association and will entirely run the Association with all costs for over a week. This is clearly a huge contribution as it will help upwards of 50 new patients and carers affected by this cancer during that time. We are indebted.

Oesophageal cancer is still a difficult disease to treat and the incidence is unfortunately increasing in the UK. Our work to support patients and their families by providing the telephone helpline and quality information appropriate to their treatment is increasingly needed. We are also trying to influence the public to seek advice earlier if they have persistent symptoms, and GPs to be more aware of the possibility of the disease thus ensuring earlier referral to specialists.

Thank you once again and please thank your supporters on our behalf.

Kind regards

Lynne Watson  
Patient Support Manager
